SMART COOKING PLAN

Finish sooner, without rushing

Saves about 9 min

Independent steps overlap safely. Cleanup only appears when nothing needs your immediate attention.

0:00 (0–8 min) 1 **Prep chickpeas & broccoli**
Dry, chop, season, and arrange on the tray.

0:08 (8–26 min) 2 **Roast tray**
Oven work begins. Turn the tray once at 17 minutes.

0:09 (9–15 min) 3 **Blend green goddess sauce** OVERLAPS
Safe to overlap while the tray roasts.

0:15 (15–19 min) **Quick cleanup** CLEAN AS YOU GO
Rinse blender, wipe the board, and load the dishwasher.

0:19 (19–26 min) 5 **Warm grains & set bowls** OVERLAPS
Keep an ear out for the turn-tray alert.

0:26 (26–32 min) 6 **Assemble & finish**
Check doneness, build bowls, and add dressing.

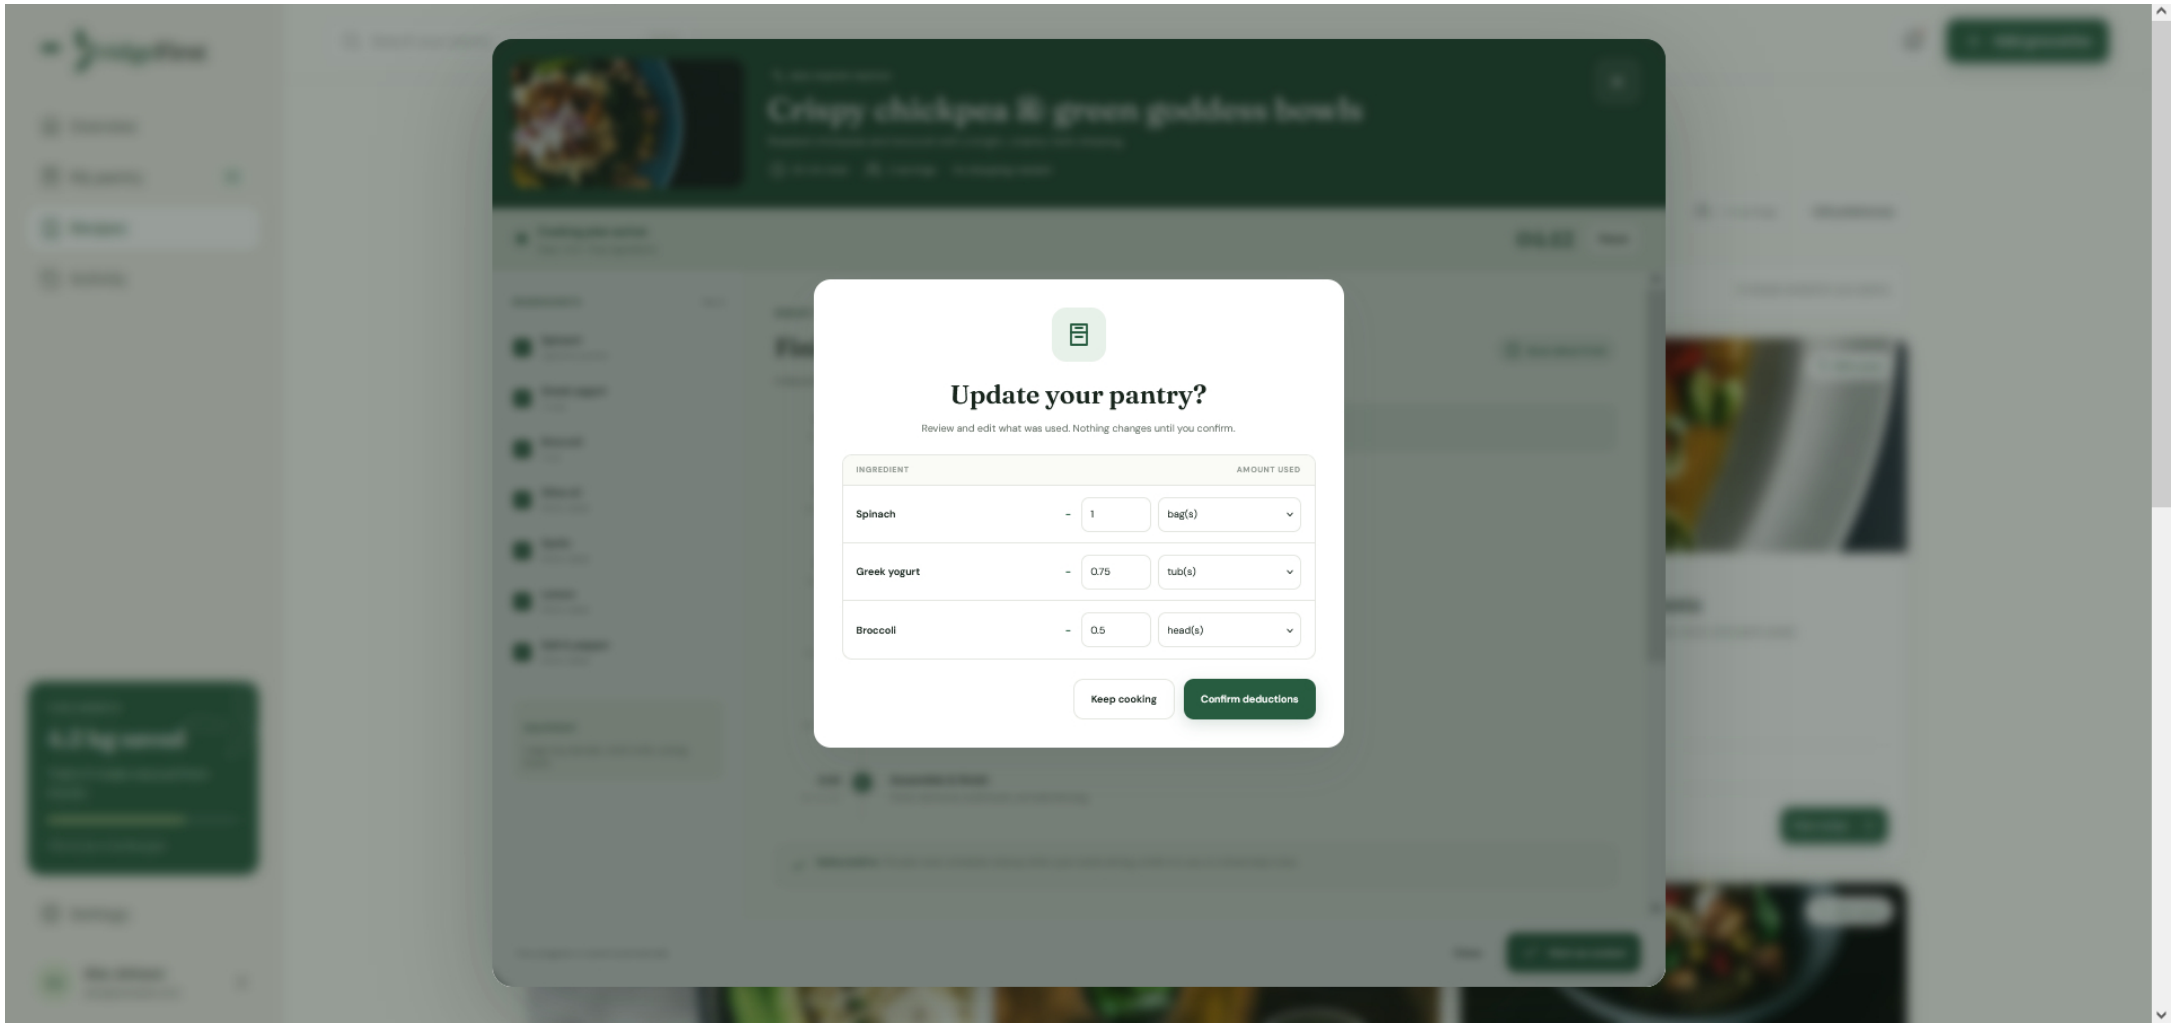

Safety built in. The plan never schedules cleanup while a pan needs stirring, a knife is in use, or a timed step is due.

STEP-BY-STEP — 4 steps

The smart plan adjusts timers as you cook
